

Level Monitor Bell

TYPICAL APPLICATION

For use with all of MPE's Level Monitor Submersible Pressure Transducers.

DESCRIPTION

The Level Monitor Bell for use with the M.P. Electronics Level Monitor Submersible Transducer makes operation and maintenance simpler by keeping the transducer clean and measuring accurately.

The use of the Level Bell is the most effective method for preventing sludge buildup when using a submersible transducer.

The Level Bell is compatible with all of M.P. Electronics Level Monitor Submersible Transducers.

SPECIFICATIONS

For use with Level Monitor Submersible Pressure Transducers
